

The submitted manuscript should contain title, authors, abstract, key words, introduction, materials and methods, results and discussion, conclusions, acknowledgements (if there are any), and references and should not exceed 8 pages.

The file containing the manuscript must be in MS Office Word format (**.doc** and **.docx**). The text should be in Times New Roman, size 12, aligned on both sides. The measuring units (cm, m, km, t, l, g, kg, s, h and others) should be denoted according to the SI system. Latin names of plant and animal species should be given in compliance with The International classification in *Italic*.

The text should be organized as follows:

TITLE: The title must be short and must identify correctly and exactly the content of manuscript. It must be written with **Bold** font with Font size 14, without any abbreviations.

The forename and surname of every author should be indicated under the title with lower case (font size 12).

The institution, where every author works, should be indicated under the forename and surname of author with font size 12. Figures in suffix should be used for reference to authors addresses.

Indicate the  ORCID ID of authors if they have such number.

The Corresponding author and his email should be indicated with star (*).

ABSTRACT AND KEY WORDS: The **abstract** reflects shortly and clearly the basic information and scientific impacts of the article with cited the main obtained results. The abstract shall not exceed 250 words. The **keywords** must be well-chosen and express concern of research. Shall not point more than 6 keywords.

INRODUCTION: Introduction must answer the following questions: What is known and what is new on the studied issue? What are the motives for research into the problem, described in the manuscript? What is at stake hypothesis and aim in manuscript?

MATERIAL AND METHODS: Shall be fully described the objects of exploration; the organization of conducted experiments, chemical analysis, statistic and other methods and terms, which shall be annexed for experiments.

RESULTS AND DISCUSSION: Results of research must be present apart of debate or together in one paragraph. The presentation of results must be precisely, without repetitions and should include appraisal of significant differences and other parameters.

CONCLUSIONS: Present the most important consequences for the science and practice resulting from the conducted research. They should be summarized in few sentences.

ACKNOWLEDGEMENTS (if there are any).

CONFLICT OF INTEREST: disclose the presence or absence of a conflict of interest.

REFERENCES.

TABLES AND FIGURES

Tables should be submitted on a separate sheet at the end of the text and must be cited in the text. They should be prepared in MS Word format - **doc** and **docx** files (only when there is special need – in **xls** files). Tables are numbered in Arabic numerals according to their sequence in the text. Each column in the table must have heading and, when necessary, abbreviations should be explained in the legend.

Illustrations (maps, charts, graphs, drawings, photos, etc.) are to be referred to as ‘Figures’ and numbered in sequence. They should be as clear and free from text, presented as in format **tif, png, xls, eps**. Numeration and title of the figures are placed below the figure, with all necessary indications presented. It is recommended the figures to be in black and white. Provide figures and photographs with good dark and light contrast. Prepare drawings with dark, heavy lines as to be appropriate for printing.

All tables and illustrations must be cited in the text.

ABBREVIATIONS

Abbreviations may be used for other expressions provided that, when first mentioned, they are defined in full, followed by the abbreviation in parenthesis and used consistently thereafter.

REFERENCES

In the text, references should be cited as follows: single author (Morris, 1991); two authors (Barton and Moore, 1994); more than two authors (Levi et al., 1994). When several references are cited simultaneously, they should be ranked by chronological order e.g.: (Petrovic et al., 2011; 2015) and when their publications are in the same year – alphabetically. All published works referred to in the text must be listed in the reference list and vice versa.

Reference list is arranged alphabetically (by the surname of the first author) and chronologically. When citing several publications by the same author, his individual publications are given first, followed by publications in co-authorship (with one co-author, two co-authors, etc.). It is desirable to list the names of all authors.

Names of authors and journal titles in Cyrillic or alphabet different from Latin should be *transliterated into Latin* and article titles should be *translated into English*. The original language of articles and books translated into English is indicated in brackets after the bibliographic reference (in Bulgarian = Bg, in Russian = Ru, in Serbian = Sr, in Chinese – Ch, etc.).

Example: Valchev, I. (2015). Investigations of the effects of aflatoxin B₁ on haematological parameters in mulard ducks. *Zhivotnovadni nauki*, 52(6), 23-33 (Bg).

In transliteration, letters are replaced as follow: А=А, Б=В, В=В, Г=Г, Д=Д, Е=Е, Ж=Zh, З=Z, И=И, Й=Y, К=К, Л=Л, М=М, Н=Н, О=О, П=П, Р=Р, С=С, Т=Т, У=У, Ф=Ф, Х=Х, Ц=Ts, Ч=Ch, Ш=Sh, Щ=Sht, Ъ=А, Ь=У, Ю=Yu, Я=Ya.

The journal follows [APA citation style](#). Data in the reference list should be cited as follows:

A. *Journal articles*

Author(s) surname and initials, given bold, year, title, *journal title (in italic)*, volume, number, pages. *Example:*

Ladner, C., Brinkman, C. R., Weston, P. & Assali, N.S. (2016). Dynamics of uterine circulation in pregnant and nonpregnant sheep. *American Journal of Physiology*, 218(1), 257-263.

B. *Books*

Author(s) surname and initials given bold, year, title, edition, name of publisher, place of publishing.

Kamburov, P., Vassilev, I., Georgieva, D., Kamenov, Y. & Koynarski, V. (1994). *Veterinary Parasitology*. Agropress, Sofia (Bg).

Warriss, P. D. (2000). *Meat science: An introductory text*. CAB-International: England, Wallingford.

C. *Book chapters or conference proceedings*

Author(s) surname and initials, given bold, year, title. In: Title of the book or of the proceedings followed by the editor(s), name of publisher, place of publishing, volume, pages. *Example:*

Abril, J. R., Barclay, W. R. & Abril, P. G. (2000). Safe use of microalgae (DHA GOLD) in laying hen feed for the production of DHA-enriched eggs. In: *Egg Nutrition and Biotechnology* (Sim J. S., Nakai S., Guenter W., eds). CAB International, Wallingford, UK, 197-202.

D. *Abstracts of reports on scientific forums*

De Veer, A., De Boer, I. & Kuipers, A. (2016). Developments, strategies and challenges for Netherlands' dairy sector. In: *Book of Abstracts of the 67st Annual Meeting of the European Federation of Animal Science*, 24-24.

E. *Dissertations and Phylosophy Doctor Theses*

Hallberg, L. (2016). Betydelsen av inflammation och reninangiotensin-aldosteron-systemet vid ångest och depression. Doctoral dissertation, Lund University.

F. *Online publications*

Ye, W. (2003). Application of near-infrared spectroscopy for determination of nutrient contents in manure. *Retrospective Theses and Dissertations*. Paper 1479. <http://lib.dr.iastate.edu/rtd/1479>
